## Decal Installation & Location Instructions

The following examples are approved installation locations for the required decal package.

Contact [media@champcar.org](mailto:media@champcar.org) with decal location questions.

Place sponsor and number panel as shown between arrows. They **MUST** be displayed as in the image above. You may cut out the sponsor decals, but they must remain in the vertical alignment, and be in the same order. Failure to do so could keep your team from starting the race until they are fixed.

Additional event specific decals may be required at certain events. Instruction on placement of those decals will be available at the event and in the ChampCar Event Supplements. Most likely place for the decals will be above the class letter on the doors.

If you have a custom wrap, please make arrangements for the required ChampCar decals in your design.

The number panel design will allow you to remove the top and lower Sponsor/ChampCar sections if you race with other sanctioning bodies. Just visit tech when you return to ChampCar to get new upper and lower sections of the number panel for free.

Replacements available at Tech & Registration on race weekends. Limited quantities available.

Convertibles and topless cars only. May face forward or toward drivers right like on the roof.

To order decals, visit  
RVA Graphics & Wraps  
<https://rvagfx.com/store>

Only official ChampCar Decals will be allowed through tech. Do not print your own.

Official decal locations and order are required and are not a suggestion.

You will not be allowed to enter the track until decals are in the required locations.

Windshield banner is required at the top of the window. The background is optional. Per the BCCR, do not use white, orange, or yellow backgrounds. Cars without front windshields must have the decal at the top of the hood. The letters can be arranged to the curvature of the window. Team sponsor decals may go below the TireRack decal.
